

Says

What have we heard them say?
What can we imagine them saying?

user asked for the uber expeditionary analysis

User will book the cab from one place using mobile app uber and he will wait for the vehicle to pick him

The driver will get the notification for the user request then he will pick him and drop in destination location

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

using uber app user will place the request for travel

Then corresponding Driver (Two wheeler or cab) will get the notification for travel

Driver will pick him and drop in destination

Nathiya A

B.Sc.,
Maths goverment
arts and science
college, Thennaguar

User validation needs to done using Govt Id and he will place the request in user mobile app

Travel location should be a valid to proceed further

Valid cab driver will get the notification for travel request

If all fine then we need to approve the travel request

Traveller might be fear on night travel

User might be fear on assert and wealth

Traveller might be read/saw any bad review about uber

Traveller might face any bad experince in their past travel

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
